

Americans Coping With the Coronavirus Are Clogging Toilets

Wastewater treatment officials across the country have beseeched residents not to flush wipes down the toilet using the hashtag #WipesClogPipes. *Credit...Tamir Kalifa for the New York Times*

Please dispose of disinfectant wipes, paper towels, baby wipes and other paper products in the trash. *“Flushable wipes are not truly flushable”* They might go down the drain, but they do not break up like regular toilet paper. Wipes are clogging pumps and equipment used in the treatment of Winthrop’s wastewater and putting more strain on pipes.

Your help is appreciated!!
